

NEW SELF STUDY WEBINAR

POSITIONING AND MEAL TIME HABITS TO SUPPORT SAFE SWALLOWING AND FEEDING IN GERIATRICS: THE SLP's ROLE

This 1-hour webinar provides an opportunity to familiarize the SLP with meal time habits and positioning to support safe swallowing and feeding in the geriatric population. This course is offered for 0.1 ASHA CEUs (Intermediate Level; Professional Area).

This course is taught by Kristin Sears-Kopp, MA/CCC-SLP, a practicing SLP who improves the lives and mealtimes of patients with dysphagia with the use of instrumental assessment. Kristin's current role as Clinical Coordinator at Carolina Speech Pathology allows her the opportunity to participate in the further development of SLP's skills and knowledge for the evaluation and treatment of dysphagia.

Participants will learn to:

- Recommend positioning effects on swallowing function
- Identify strategies and positioning to improve overall swallowing physiology and function
- Implement techniques to increase oral eating and feeding experiences within the geriatric population.

Registration:
